Sport Conversion Chart

The Sport Conversion Chart is for converting a bowler's average from Sport to Standard, and vice versa, for leagues and tournaments. The conversion chart is not considered a "re-rate" of the bowler. Its purpose is to allow for a fair adjustment so the bowler's entering average is what would be expected of the bowler on the lane conditions of the league or tournament.

Note: If converting from Standard to Sport average, and the Standard average is not on the chart, move up one (1) pin and convert. For example, a 171 Standard average converts to a 150 Sport Average. If the Standard average is listed twice, convert to the higher of the Sport averages. For example, a 227 Standard average converts to a 199 Sport average.

Challenge Conversion Chart

The Challenge Conversion Chart is for converting a bowler's average from Challenge to Standard, and vice versa, for leagues and tournaments. The conversion chart is not considered a "re-rate" of the bowler. Its purpose is to allow for a fair adjustment so the bowler's entering average is what would be expected of the bowler on the lane conditions of the league or tournament.

Note: If converting from Standard to Challenge average, and the Standard average is not on the chart, move up one (1) pin and convert. For example, a 180 Standard average converts to a 167 Challenge Average. If the Standard average is listed twice, convert to the higher of the Challenge averages. For example, a 212 Standard average converts to a 198 Sport average.
