# FALLS CHURCH COMMERCIAL LEAGUE

## BOWL AMERICA FALLS CHURCH

The following six tables list the 25 bowlers with the most games bowled for the past 30 years, 25 years, 20 years, 15 years, 10 years, and 5 years. It doesn't mean that the listed bowlers bowled each and every year during the time periods covered - just that their number of cumulative games for that period are among the top 25 of current Commercial League members. All lists include only bowlers who bowled at least 9 games in the 2011-12 Commercial League season, displays each listed bowler's composite Commercial League average for the referenced time span, and shows how that composite average compares with the other 24 bowlers listed for that same period of time.

Some observations concerning the preceding tables and my supporting data files:

- Don Freeman leads the 30-year list in games bowled having bowled seventeen more games than runner-up John Cover over that time frame.
- Scott Williams leads the 25-year and 20-year lists in games bowled. Scott had perfect attendance again this year, giving him a total of only eight missed nights of bowling the last twenty seasons and twelve missed nights in the last twenty-five years. He has had perfect attendance in eighteen of the twenty-five years he has bowled in the Commercial League.
- Dave Chittum had another season with perfect attendance and leads the 15-year and 10-year lists in games bowled and shares the lead on the 5-year list with Luis Pinto. Dave has missed only one night in the eighteen years he has bowled in the Commercial League (he started in the 1994-95 season) and has perfect attendance the last twelve seasons. Dave, Luis, and Richard Ernst (who missed one game, but was here each week) are the only bowlers with perfect attendance the last five years.

### 2011-12 Commercial League Perfect Attendance

A total of eighteen bowlers maintained a perfect attendance record during the year, nine from 'A' and nine from 'B'. Participation in pre-bowled and post-bowled matches counts towards perfect attendance.

2011-2012 FALLS CHURCH COMMERCIAL LEAGUE  
BOWL AMERICA FALLS CHURCH  
HIGHLIGHTS FROM WEEK #35 - 2 MAY 2012

Congratulations to team #15, Bowling For Soop, as they picked a good week to roll the season's high team series scratch (a 2851) against team # 8, Eight Is Enough, in the final night's feature match. Team #15 went 30-2 in what turned out to be a rather lop-sided league championship match. The match between the two second place teams was also not very close, although team #17, Wild Turkeys, did lose seven points and was down 83 pins to team # 7 after the first game. But team #17 recovered in games two and three, winning by 105 pins and 210 pins, respectively, and ended up winning 23 points. Kudos to each of the top four teams on their success this season!

Andrew Blackmore's 289 game and 785 series were the high scratch game and set in the final week and earned Andrew star-of-the-week honors at 140 pins over average. The overall league average on the last night was 203.7 and there were a total of eight 700 series. After Andrew's 785 came Albert Utterback 759, Chhoeun To 754, Joey Havens 740, Willie Williams 739, Chris Blackmore 735, Rich Lucey 722 and Chris Chittum 717.

Rich Lucey (722) finished with the league high average at 231.8. Mike Manolis (604) was second high average at 225.6 and Joey Havens (740) was third high average at 224.5. Tyler Sanders won the individual points won category with a total of 89 points. Scott Miller finished second in individual points won with 82 points. Jay Barrett and Pat Dishner tied for third in that category as each won 79.5 individual points.

The divisional races for third place were settled in the final game of the season. In 'A', team # 9, Toilet Bowlers, overcame a 12.5-point deficit going into the final week and went around team # 3, Know Your Rights, after winning 30 points. In 'B', Chris Chittum's 261 game helped team #19, Controlled Chaos, win the third game and hold onto third place over team #12, Tucking Fenpins. As mentioned in the opening paragraph, team #15, Bowling For Soop, had the season high team series scratch in week 35 with a 2851 total. That effort was led by Andrew Blackmore's 785 series with strong assists from Chris Blackmore (735), Allen Walker (694) and Jonathan Blackmore (637).

# FALLS CHURCH COMMERCIAL LEAGUE

## BOWL AMERICA FALLS CHURCH

For you high average bowlers, ever wonder how you have been averaging compared to everyone else over the past 5,10,15,20,25 or even 30 years. Gabe Kiblin has - so I built him a variation of these tables. The following six tables list the 25 highest averaging bowlers for the past 30 years, 25 years, 20 years, 15 years, 10 years, and 5 years. I included bowlers who have bowled at least 25% of the maximum number of games for the specific period listed - even those who may not still be bowling in our league. Each list shows the names of the top 25 bowlers from highest to lowest average for that time period and displays each bowler's composite Commercial League average. It should come as no surprise that Chhoeun To carries the high composite average for each of the periods shown.

**RECORD SETTING NIGHTS FOR 2011-2012**

The overall average for the season of 198.9 is the second highest ever, trailing only the 2005-2006 season average of 201.4. A brief summary of this season's best nights follows.

High Avg. Night	203.9	(Week 27 - March 7th)
# 700 Series	11	(Week 28 - March 14th)
# 650-699 Series	23	(Week 25 - February 22nd)
# 600-649 Series	27	(Week 14 - Dec 7th and week 17 - Dec 28th)
# 250 Games	24	(Week 28 - Mar 14th, week 34 - Apr 25th)
# 200-249 Games	127	(Week 24 - Feb 15th)

**HOW YOUR TEAM DID IN THE WON/LOST DEPARTMENT**

For the third straight year no team recorded a perfect 32-0 record this season, a feat accomplished only four times in the ten seasons we've been using the 32-point format. There were three times this year when teams got close by going 31-1. Team # 6, Myer Connex, did it in week 3, team # 8, Eight Is Enough, did it in week 16, and team # 9, Toilet Bowlers, pulled it off in week 24. Winning 28 or more points in a match is also no easy task as it was done only 52 times in the 350 matches that took place. Team # 6 led 'A' in doing so as it won 28 or more points on five different occasions. Team #12, Tucking Fenpins, in 'B' led the league in winning 28 or more points on six different nights. At the opposite extreme, team # 1, A/R Funding, failed to win at least four points on four different nights, earning the dubious distinction of leading the league in that category.

The following table shows how each team finished in their division and the number of times that each team won the number of points indicated in the last eight columns.

**FOUR-IN-A-ROW 600+ CLUB**

Fifty-one different bowlers had at least one string of four consecutive 600 series or better. Allen Walker had the highest consecutive 600+ string as he ended the year with a string of thirty-two-in-a-row. Twenty-eight bowlers made it to the club more than once. Ten bowlers made it into the club on three different occasions this season. Allen Walker and Adam Corder spent the most combined weeks in the four-in-a-row club with 32 weeks. Allen did his with one long string while Adam had strings of nine, eleven and twelve-in-a-row for his combined 32 week total.

**FOR LADIES ONLY**

Although we do not recognize our top female bowlers with a separate women's prize list, this section does reflect their top scores for the season in each category. In order for a score to be shown, the women must have bowled at least 72 games in the league. There were only three women that had that many games and one of those was 'super sub' Bonnie Wiley. So here is how Cassandra, Belinda and Bonnie stacked up in the categories below - pretty good scores I'd say!

Rich and Joey Havens moved up from last year's second string and Mike Manolis, Allen Walker and Albert Utterback are new to the all-star team this season. As far as this year's second string all stars go, Carl Armstrong moved down from last year's first string and Adam Corder, Robert Diggs, Andrew Blackmore and Sherwin Javier are all newcomers to the team this season.

The average first game team handicap score was 948.4. The second game (957.0) was the highest scoring game while the third game average (950.8) was 6.2 pins lower, probably a result of drier lane conditions by the time we reached game three. **TOP WINNING PERCENTAGES** The table below lists the top five teams in each division with the best winning percentages for regular rounds, divisional position rounds, and interdivisional position rounds. Our league champions, team #15, had the best winning percentage in any category by posting a 167-57 record during 'A' vs 'B' position rounds for a .746 winning percentage. Team #15 also was the only team to place in the top five winning percentages in each of the three categories.

	Team #15 - .509	5) Team #15 - .525	5) Team #12 - .516

- Only two teams posted a .500 or better winning percentage in each of the three categories - the two top teams in 'B' (teams #15 & #17).
- At the other extreme, team #13 was the only team to have had sub-.500 winning percentages in all three categories.
- Team # 5 had the lowest winning percentage by any team in any category after finishing 81.5-270.5 in divisional position rounds for just a .232 winning percentage.

**SCRATCH AND HANDICAP TEAM GAME AVERAGES RANK ORDERED**

Listed below, for each division, are each team's averages for scratch game (column 1) and handicap game (column 2) categories. Column three shows the rank order of the opposing team's average handicap game.

To end up as the Commercial League champions, your team has to both bowl well during the year and be fortunate enough to catch your opponents on other than their best nights. At the conclusion of each season, one of the more telling stats is always how well the opposition bowled against your team. It is common place to see some of the top teams with the lowest opponent's average bowled against them. Similarly, some of the bottom finishing teams seem to have hit the hot teams more than their fair share. As a case in point, this year in division A, team # 8, Eight Is Enough, won the division while having the lowest opponents average rolled against them. Likewise, team # 7 came in second in the division and had the next to lowest opponent's average bowled against them. The same holds true for the 'B' side where the division winners (and eventual league champions) team #15, Bowling For Soop, had the next to lowest opponent's average bowled against them. And even with the use of a six-man roster, team #15 had the highest team scratch average in the league. Having the best team scratch average and one of the lowest opponent's average bowled against them proved to be a winning combination.

So once again the stats confirm that, yes, you have to bowl well to have a chance to win, but it is also helpful if you are fortunate enough to avoid the hot teams week in and week out.

### THE 2011-2012 SEASON IN REVIEW

The 2011-2012 season will be remembered for down to the wire finishes in each division and also for Joey Havens' league and house record 867 series that he rolled on April 4th, 2012. Following is a recap of how this season's divisional races unfolded.

### DIVISION 'A' RACE

During the course of the season the 'A' division had five different teams that held first place. Team #10, Drunk Monkeys, held first place for just the first week. Team # 5, Pin-a-tration, took over first in week two, gave it up to team # 6, Myer Connex, in week three, but regained the lead and held it in weeks four through seven. In week eight, team # 8, Eight Is Enough, took over the 'A' lead and stayed at the top almost the rest of the way - leading by as many as 59 points (week sixteen). The only week team # 8 wasn't in first the rest of the way was in week twenty-eight when team # 7 took the 'A' lead by a single point. But team # 8 won big the next week and team # 7 was unable to sustain their momentum. Team # 7 did have one last shot at winning the 'A' title in their week 34 divisional position round against team # 8, but team # 8 prevailed in that key match 22-10. Both teams ended up losing their week 35 matches against their 'B' opponents and ended up finishing overall second and fourth, respectively.

### DIVISION 'B' RACE

The 'B' division only had four different teams in first place during the year. Team #12, Tucking Fempins, started the year off at the top after week one, and then was in first place just one other week during the season (at the half-way point after week seventeen). Team #19, Controlled Chaos, showed a lot of early speed in 'B' as they held first place from weeks two through ten - including a 36-point lead after week six - which was the largest lead in 'B' that any team enjoyed all year. In week eleven, team #17, Wild Turkeys, took over the 'B' top spot and held it for twenty of the next twenty-one weeks. The one week exception was team #12's brief one-week stay at the top after week seventeen. However, team #15, Bowling For Soop, ended up overtaking team #17 when they bowled each other in week 32, a match in which team #15 won 25 points. Team #15 never looked back from that point and won the division title by a 22-point margin. As it turned out, team #15 was saving their best for last, shooting the season's high team scratch score in the championship match against team # 8 (a story recapped on page 12) to become the 2011-2012 Commercial League champions.

### SOME LAST MINUTE THOUGHTS

As has often been pointed out, it will take everyone's cooperation/assistance to add more teams next year. As of right now, we have three teams not returning and I have input on one new team and several individual bowlers wanting to join next season. We obviously have room for lots more. So, how about it - let's all work towards expanding the league. Talk to your siblings, spouses, friends, coworkers, bowling buddies, etc. about joining the Commercial League for next season.
