# FALLS CHURCH COMMERCIAL LEAGUE

## BOWL AMERICA FALLS CHURCH

The following six tables list the 20 bowlers with the most games bowled for the past 30 years, 25 years, 20 years, 15 years, 10 years, and 5 years. It doesn't mean that the listed bowlers bowled each and every year during the time periods covered - just that their number of cumulative games for that period are among the top 20 of current Commercial League members. All lists include only bowlers who bowled at least 9 games total in the combined 2020-21 Commercial League sessions, displays each listed bowler's composite Commercial League average for the referenced time span, and shows how that composite average ranks with the other 19 bowlers listed for that same period of time.

WILEY, BONNIE	852	192.79	17
BLAZEJEWSKI, ANDY	635	213.25	3

Some observations concerning the above four tables and my supporting data files:

- Although Scott Williams has the most games bowled for each of the 30, 25 and 20-year lists, John Holtzclaw's 1536 games is the most over the past 15 years. John has only missed three nights of the Commercial League over the past 15 years.
- Terry Wiley has the highest average for league members that qualified for the 30, 25 and 20 year 'top 20' lists. Terry didn't have enough games bowled to make the top 20 for the 15-year list. Glenn MacCullough leads the 15-year list with a composite 216.43 average.

Additional observations concerning the preceding tables and my supporting data files:

- Thirteen current league members have enough sustained longevity in the league to have appeared on all six lists. In alphabetical order they are - Andy Anderson, Bryan Anderson, Kevin Anderson, Carl Armstrong, Paul Cecchini, Noel Dysart, Richard Ernst, John Holtzclaw, Glenn MacCullough, Hollis McMullen, Scott Miller, Brian Sesso and Scott Williams.
- John Holtzclaw and Scott Williams are tied for the most games bowled over the last 10 years (1029 out of a possible 1035). John and Chris Price head up the 5-year list as they are the only two Commercial league members with perfect attendance over the last five years.
- Glenn MacCullough's 218.32 average led the 10-year list but Chris Price took over the top spot on the 5-year list with a 221.06 composite average.
- Many of our 'regular' league members sat out this past season and therefore did not qualify this season to be recognized in the previous tables for their longevity in the Commercial League. Here is a quick shout out to some of those members in hopes that they will be rejoining us this fall for the 2021-2022 season. Are you listening - Don Freeman, Mike Manolis, Ted Lutz, Mike Leach, Gabe Kiblin, Scott Wilson, Sam Highsmith, et al???

### 2020-21 Commercial League Perfect Attendance

Despite the ongoing pandemic this past season, ten bowlers had perfect attendance for the 2020-21 season. That was for a combined total of 34 weeks and a maximum of 102 games bowled. Those ten bowlers were -

Andy Anderson	John Holtzclaw
Bryan Anderson	Josh Hurdle
Mike Clark	Hollis McMullen
Richard Ernst	Scott Miller
Steve Hill	Chris Price

**HOT STREAKS and NOT-SO-HOT STREAKS - ONLY HAPPENED ONCE**

I define a streak as four or more consecutive weeks of winning (or losing) 20 or more points each week. Since we basically had the same eight teams bowl each league session, I considered the combined thirty-four weeks that each team bowled when looking for winning and losing streaks of four or more weeks - and surprisingly there was only one winning streak that met that criteria. Team # 7, the eventual second session league champions, started off that session with a four-week winning streak and a 100-28 won/lost record. They added two more three-week winning streaks that pretty much clinched their run for the title. I think our two-session schedule with a total of seven fairly evenly matched teams to bowl against was a key factor in the lack of 'streaks' this season.

**HOW DID THIS YEAR'S LEAGUE AVERAGE COMPARE TO THE LAST TWO YEARS?**

The league average this year was 195.6 which is slightly higher than the previous two seasons' composite average. The league average for the first session this season was very low at 191.6. Everyone must have got used to wearing a mask while bowling in the second session as that league composite average almost got to 200. The following table shows the end of season Commercial League composite average for each of the past three seasons.

**COMMERCIAL LEAGUE ALL-STAR TEAMS**

This section salutes our regular bowlers who bowled at least two-thirds of the combined schedule (68 games) and carried the top averages in our league. There are some of the same old names from previous seasons but also some newcomers since a lot of our regular bowlers sat this year out. Chris Price had the league's highest composite average at 224.51 to head up the first-string all-star team. Chris and Michelle Booth are repeaters from last year's first-string team and Glenn MacCullough moved up from last year's second string. Josh Hurdle and Steve Hill round out this year's first-string team. It is interesting to note that three of the five first-string all stars are from the same team (/R Funding). Andy Blazejewski leads the second-string team this year and he is joined by four newcomers to the all-star teams - Jose Vega, Carl Armstrong, Bryan Anderson and Paul Cecchini.

## BOWL AMERICA FALLS CHURCH

For you high average bowlers, ever wonder how you have been averaging compared to everyone else over the past 5,10,15,20,25 or even 30 years. The following six tables list the 25 highest averaging bowlers for the past 30 years, 25 years, 20 years, 15 years, 10 years, and 5 years. I included bowlers who have bowled at least 25% of the maximum number of games for the specified period listed - even those who may not still be bowling in our league. Each list shows the names of the top 25 bowlers from highest to lowest average for that time period and displays each bowler's composite Commercial League average. Two bowlers who did not bowl this season still carry the leading averages in five of the six timeframes based on the criteria I used. Chhoeun To carries the high composite average for the 30-year, 25-year, 20-year and 15-year lists while Rich Lucey Jr leads the 10-year list. Andrew Blackmore, who did not bowl in the Commercial League this season, heads up the 5-Year list.

**HOW YOUR TEAM DID IN THE WON/LOST DEPARTMENT**

This season was unique in a lot of ways. The season was divided into two different league sessions, each running 17 weeks. When the second session started up in January, new team numbers were assigned based on the finishing order of the first session. For the most part, team compositions stayed the same. The table below covers each team's performance for the entire season.

There were no clean sweep (32-0) matches this season, a feat accomplished only 12 times in the previous seventeen seasons that we've been using the 32-point format. And only one match's outcome was 31-1 this season. In week 5 of the second session (24 Feb) team #1/2 defeated team #8/5 by that margin in a match that team #1/2 won by 362 total pins. Interestingly enough, there was only one other match all season with a 30-2 result when team #7/3 defeated team #8/5 in the final night of session II on 19 May.

Winning 28 or more points in a match is also no easy task as it was done only 14 times in the 136 matches that took place. Team # 5/1, Erratic, was the only team to do it more than twice and they did it four times. That also helped Erratic to the season's best overall won/lost record at 588.5-499.5 and first and third place finishes, respectively. On the other hand, four of the league's eight teams only won 28 or more points one time all year.

Team #3/7 won 20 or more points seventeen times, exactly half of the thirty-four weeks we bowled. And team #3/7 did it ten of the seventeen weeks in the second league session. No wonder they ended up winning it! Avoiding the big losing nights also helps a team finish higher in the standings. The only team to avoid winning less than four points in any given week was team #4, Drunk Monkeys. That no doubt helped the Drunk Monkeys to their fourth and second place finishes, respectively.

The following table shows how each team finished each session and the number of times that each team won the number of points indicated in the last eight columns for the entire season.

TEAM #	SESSION FINISH I/II	WON 28+	WON 24- 27.5	WON 20- 23.5	WON 16- 19.5	WON 12- 15.5	WON 8- 11.5	WON 4- 7.5	WON 0- 3.5

### FOUR-IN-A-ROW 600+ CLUB

The four-in-a-row club was tracked separately in each of the two league sessions this year. The longest string in the first league session was 7-in-a-row by Steve Hill. It looks like everyone was getting used to wearing a mask by the second session as there were seven strings longer than that in the second session. Andy Blazejewski had the season's longest string with 14-in-a-row to finish the season. Here are the full results.

#### League session I - 17 weeks running from August 26, 2020 to December 16, 2020.

4-in-a-row: Josh Hurdle(2), Hollis McMullen, Noel Dysart, Terry Wiley,  
Bryan Anderson, Paul Cecchini, Scott Williams, Willie Williams  
5-in-a-row: Chris Price, Willie Wilcox  
6-in-a-row: Willie Wilcox, Michelle Booth, Chris Price, Steve Hill  
7-in-a-row: Steve Hill

#### League session II - 17 weeks running from January 20, 2021 to May 19, 2021.

4-in-a-row: Mike Clark, Carl Armstrong(2), Bryan Anderson, Robert Diggs  
5-in-a-row: Chris Price, Jose Vega, Bryan Anderson, Andy Anderson  
6-in-a-row: Steve Hill, Mike Clark  
8-in-a-row: Brian Sesso, Jose Vega  
9-in-a-row: Chris Price  
10-in-a-row: Glenn MacCullough  
11-in-a-row: Josh Hurdle  
12-in-a-row: Michelle Booth  
14-in-a-row: Andy Blazejewski

### INDIVIDUAL AVERAGE CHART

The following chart breaks out individual averages for the league as a whole. It only includes the 39 bowlers who rolled 21 or more games this season.

<u>Average</u>	<u>Number</u>	<u>Percentage</u>

220+	1	2.56%

### TEAM AVERAGE CHART

The following chart includes the team averages for the 8 teams in the league, broken out by session I and Session II. Even though we had almost the same bowlers each session, the league team average improved 32 points the second session (772.73 to 804.88). The A/R Funding team had the highest team average each session - 817.67 in session I and 847.84 in session II.

<u>Session I</u>	<u>Team Average</u>	<u># of teams</u>	<u>Percentage</u>
	Under 740	1	12.50%

	760-779	2	25.00%
	780-799	2	25.00%
	800-819	1	12.50%

The average league team average in session I was 766.63. Session I's team #3/7 was closest to the that average with a 772.73 team average.

<u>Session II</u>	<u>Team Average</u>	<u># of teams</u>	<u>Percentage</u>
	Under 740	0	0%
	740-759	1	12.50%

Just as most everything else was affected, the number of youth bowlers in the Saturday morning leagues at BAFC was far fewer than the previous season. Both the Youth Travel League and the association's annual Youth Invitational Tournament were cancelled this past season. This year the Reggie fund paid the league lineage each week for five youth bowlers during the season. The fund also bought new bowling balls and bags for three of our new bowlers, purchased embroidered bowling shirts for each league member, and paid the entry fees for two youth tournaments. Results from the youth tournament entries paid by the Reggie fund are still pending. Hopefully, some of our youth bowlers who participate in those tournaments will add scholarship winnings to their SMART accounts.

Once again, thanks for any and all individual donations as well as the contributions from leagues that donate their 50/50 proceeds to the Reggie fund. This season the Commercial League donated a total of \$2,182.80 to the Reggie fund. The First Niters added another \$1,831.90. May 9th marked the fourth anniversary of Reggie's passing. Thank you everyone for honoring his memory in such a special way!!

**EVEN MORE TEAM STATS**

**TOP WINNING PERCENTAGES** - The table below lists the top four teams for each session this season with the best winning percentages for regular rounds and for position rounds. Team # 5, Erratic, had the best winning percentage in any category by posting a 66-30 record (a .688 winning percentage) in the first session's three position round matches. That, coupled with their 233-215 record (a .520 winning percentage) in the 14 other regular matches, led them to the league championship in the first session.

WIN % RANKING	REGULAR ROUNDS WIN %	Ended Up In	POSITION ROUNDS WIN %	Ended Up In
Session-I	1) Team # 7 - .547	3rd	1) Team # 5 - .688	1st
	2) Team # 1 - .529	2nd	2) Team # 1 - .594	2nd
	3) Team # 5 - .520	1st	3) Team # 8 - .510	5th
	4) Team # 4 - .503	4th	4) Team # 2 - .505	6th
Session-II	1) Team # 7 - .627	1st	1) Team # 4 - .661	2nd
	2) Team # 6 - .523	4th	2) Team # 1 - .635	3rd
	3) Team # 4 - .513	2nd	3) Team # 2 - .578	7th
	4) Team # 1 - .510	3rd	4) Team # 3 - .531	5th

The results of the second session mirrored that of the first session. With regular rounds making up 82% of the schedule (14 out of 17 weeks), it is little wonder that the four teams with the best winning percentages in regular round matches were among the top four finishers for each session. In fact, team # 7, winners of the second session, had a much higher winning percentage in regular matches (.627 to .523) than the next winningest team in session-II, team # 6. Add a good winning percentage in the three position rounds and you were guaranteed at least a top three finish each session.

**THE BEST (AND WORST) OF TIMES**

During the course of the season, we have some good nights and some nights we'd rather forget - both individually and as a team. Below are the most one-sided individual and team games and series for this past season. As noted, all scores shown are handicap totals.

  - 140 pins, Michelle Booth beat Glenn MacCullough 318-178 gm 3 on 3 Mar
  - 124 pins, Brian Sesso beat Andy Blazejewski 295-171 gm 1 on 24 Feb
  - 114 pins, Cory Flett beat Carter Anderson 303-189 gm 3 on 31 Mar
  - 114 pins, Chris Price beat Bryan Anderson 302-188 gm 1 on 17 Feb
  - 114 pins, Chris Price beat Carl Armstrong 285-171 gm 1 on 2 Dec
- **Four most one-sided individual handicap series**
  - 234 pins, Carter Anderson beat Margaret Shifflett 806-572 on 23 Sep
  - 220 pins, Josh Hurdle beat Don Oleyar 845-625 on 31 Mar
  - 201 pins, Jose Vega beat Josh Hurdle 764-563 on 5 May
  - 185 pins, Glenn MacCullough beat Chris Price 779-594 on 28 Oct
- **Four most one-sided team handicap games**
  - 244 pins, team # 2 beat team # 5 1003-759 in game 1 on 24 Feb
  - 241 pins, team # 8 beat team # 6 1020-779 in game 2 on 28 Oct
  - 230 pins, team # 2 beat team # 8 1036-806 in game 1 on 17 Mar
  - 218 pins, team # 6 beat team # 5 1072-854 in game 3 on 3 Mar
- **Four most one-sided team handicap series**
  - 438 pins, team # 7 beat team # 6 3018-2580 on 5 May
  - 407 pins, team # 1 beat team # 2 2910-2503 on 20 Jan
  - 362 pins, team # 2 beat team # 5 2884-2522 on 24 Feb

### THE 'COVID-19' 2020-2021 SEASON IN REVIEW

The 2020-2021 bowling season will be one we will all remember for its uniqueness. Remembered for such things as social distancing, mask wearing, skipping every other pair of lanes, the constant sanitation efforts in the bowling center and for the fact that many of our regular bowlers took part or all of the season off. Since the full impact and timing of the pandemic was very much an unknown in August of 2020, a decision was made at the beginning of the season to break the league into two separate 17-week sessions. Session I ran from August into December 2020. Session II ran from January into May 2021. Even though we had been hopeful that more teams would be willing to bowl in the second session, both sessions ended up having eight teams. Below is a summary of how the races in each session unfolded.

### SESSION-I RACE

Four of the eight teams held first place for at least one week during session I, and they all did that in the first four weeks. Team #5, Erratic, was atop the standings after week 1, followed by teams #7, #1 and #6 the next three weeks. Starting in week 5 it was a two-horse race as only teams # 5 and # 7 were in first place the rest of the way. Team # 5 had sole possession of first place seven more weeks and enjoyed the largest lead over second place of any team in the first session - a 25-point lead after week 12. Team # 7 held the top spot five more times and managed to close the gap on team # 5 after week 12. In fact, after week 16 those two teams were tied for first place. Week 17's position round match decided the outcome of session I as team # 5, Erratic, prevailed with a convincing 23-point win to wrap up first place.

### SESSION-II RACE

Just as in the first session, four of the eight teams were in first place at some point in the second session. Team # 1, Erratic, and team # 7 shared first place after week 1. Starting with week two, team # 7 was pretty much in control the rest of the way, holding first place in 11 of the final 16 weeks. The one major exception to that was a two-week losing streak in weeks 7 and 8 when team # 7 went a combined 12-52. That allowed team # 6 to hold first place for three weeks and team # 1 for one week. The last remaining glitch on an otherwise dominating performance by team # 7 was a 7-25 loss to team # 4 in week 12's position round. That left team # 7 in second place, 4.5 points behind The Drunk Monkeys. But team # 7 reasserted itself from week 13 on and ended up finishing 29.5 points ahead of the second-place team, team # 4.

### SOME LAST MINUTE THOUGHTS

As always, but especially true as we work to get more of our bowlers back, we could use everyone's help in recruiting individual bowlers and/or teams for the upcoming 2021-2022 Commercial League season. It would be great to get back to the 20 teams we had before COVID hit. That would also ensure a return to our traditional two-division format. And we still have room to add teams. I will be contacting team captains later this summer to confirm your team's status.

As noted at the bottom of page 16, once again this year the proceeds from the Reggie Rich Tribute fund were used to support the youth bowling program here at BAFC. A special thanks to Diana Booth for selling 50/50 tickets each week to make that donation possible. Also, another big thank you to John Hendrick for his generous support and the fine example he sets for others. As most of you know, John always donates all of his 50/50 winnings to the Reggie fund. And now others do much the same, resulting in an increase in individual donations. To me, the fact that our little 8-team league donated \$2,182.50 to the Reggie Rich Tribute Fund is an incredible way to honor an incredible man. Well done!
