

# The Best Bowling Tip I Ever Received

By Karla Pereira

The best bowling tip I ever received was from the late Bob Pendergraft and also from Norbert Taylor. Although they worked with me to improve my game at separate times, I asked them the same question: *How do I play the lanes when I have to move inside?* The answer: Tilt the lanes.

Since I don't hook the lanes, moving inside seemed impossible. However, they both explained that I can play inside the same way I play down 10; it's now just a straight line at an angle. I was a bit dubious at first, but as time has gone by and I've bowled tournaments where I had to play across the fourth arrow, it has made perfect sense.

And more importantly, it has worked!
