

DIRECTOR KILLED IN CRASH

Willa Stanley

Willa Stanley, a director of the Washington, D.C. Area Women's Bowling Association who also served as treasurer of the Greater Washington Bowling Senate, was killed in an automobile accident in North Carolina on December 29 while visiting her family over the holidays. Last July, Stanley, a District resident, was one of 44 women selected by WIBC to participate in the 1993 Future Leaders Program at Bowling Headquarters in Greendale, Wis. The program identified new local women's bowling association leaders and taught them about leadership, WIBC, and WIBC services. It also encouraged participants to use their talents and share their knowledge upon their return to their associations. Stanley served Parkland Bowl and Andrews Air Force Base Lanes.
